

EYELASH EXTENSION INSTRUCTIONS

Congratulations on your first set of Eyelash Extensions! In order to care for your lashes and to help keep them looking great and healthy there are a few important things you need to know.

- ✓ Clean your Lashes with special Eyelash Extension Cleanser *everyday*.
- ✗ **DON'T** use mascara.
- ✓ Comb your lashes *everyday*.
- ✗ **DON'T** using your fingers to make adjustments as the oils from your hands will transfer to your lashes.
- ✗ **AVOID** extreme variation of heat, humidity, and cold weather (i.e. – hot showers, saunas, zero degree weather).
- ✓ Be sure to schedule a fill appointment every 2 to 3 weeks for timely touch-ups.
- ✗ **DON'T** attempt to remove the extensions yourself. Have them removed by your professional stylist.
- ✓ This will keep your lashes looking full and natural, indefinitely.
- ✓ Contact your stylist with any questions or concerns.
